Gemini

PAUL CO ceramiche

Gemini

Un effetto pietra estremamente realistico disponibile solo in finitura Grip R11 A+B+C, articolato in quattro colori e tre formati e completato da numerosi pezzi speciali, rende questa serie di pavimenti ideale per ogni ambiente outdoor. Le sue molteplici variazioni grafiche, che rimandano a cluster stellari, hanno ispirato il nome Gemini, il programma di volo spaziale che, negli anni '60, ha sviluppato le tecniche necessarie per effettuare lo sbarco sulla Luna.

An extremely realistic stone-effect finish, available exclusively in the Grip R11 A+B+C range, comprising four colours and three sizes and complemented by numerous special pieces, makes this range of flooring ideal for any outdoor setting. Its myriad graphic variations, reminiscent of star clusters, inspired the name Gemini – the space programme which, in the 1960s, developed the techniques necessary to land on the Moon.

Un effet pierre extrêmement réaliste, disponible uniquement dans la finition Grip R11 A+B+C, décliné en quatre couleurs et trois formats et complété par de nombreuses pièces spéciales, fait de cette gamme de revêtements de sol la solution idéale pour tous les espaces extérieurs. Ses multiples variations graphiques, qui évoquent des amas stellaires, ont inspiré le nom Gemini, le programme spatial qui, dans les années 1960, a mis au point les techniques nécessaires pour réaliser l'alunissage.

Eine äußerst realistische Steinoptik, die ausschließlich in der Ausführung Grip R11 A+B+C erhältlich ist, in vier Farben und drei Formaten angeboten wird und durch zahlreiche Sonderteile ergänzt wird, macht diese Bodenbelagsserie ideal für jeden Außenbereich. Ihre vielfältigen grafischen Variationen, die an Sternhaufen erinnern, haben den Namen Gemini inspiriert – das Raumfahrtprogramm, das in den 1960er Jahren die notwendigen Techniken für die Mondlandung entwickelte.
